EXECUTIVE ORDER

2020-01a

March 26, 2020

STATE OF EMERGENCY CITY OF FALMOUTH

Due to the (COVID-19) Pandemic, the State of Kentucky, Pendleton County, and the City of Falmouth have declared a State of Emergency. I, Mayor Ron Stinson, must enact some guidelines to further protect the citizens:

1. The City of Falmouth's Parks will remain open from dawn to dusk (sunrise to sunset). However, because the coronavirus can live on various surfaces for hours/days, the use of ALL playground equipment, picnic tables, or port-o-potties are restricted. These restrictions will also include the Pendleton County Athletic Park on Bowen Way (behind McDonald's) per request of Judge Executive David Fields. Basketball courts/baseball fields are restricted to groups. We still encourage outdoor activities to walk, run, or ride bikes. These restrictions are not meant to prohibit outdoor activity, but to maintain social distancing.
2. For their protection and safety when playing, children should play in their own yard or the yard of the caregiver. Anyone under the age of 18 should be accompanied by an adult when walking around the City of Falmouth and again social distancing should be followed.
3. Effective March 26, 2020 at sunset all juveniles must be at their place of residence or the home of a responsible adult.
4. Falmouth City Hall will remain closed to public/foot traffic indefinitely. See the City Facebook page or website for utility payment details and other information as it changes.

We are taking these measures for the safety and well being of our residents and citizens. It is not intended to restrict physical activity, but rather practice social distancing. These restrictions/guidelines will remain in effect until the state of emergency has been lifted.

Mayor Ron Stinson

ATTEST:

Ramona Williams, City Clerk/Treasurer
